ABSTRACT

This document provides statistical data on the breadth of higher education activities in the state of North Carolina for the 1993-94 academic year ranging from simple counts of enrollment and degrees conferred to complex analyses of the flow of student transfers among institutions. The report is designed to provide legislators, educators, and other interested citizens of North Carolina with a statistical account of higher education that explains who is being educated, where they are being educated, and the resources supporting their education. It contains 84 tables of data covering the areas of: (1) current enrollment, (2) enrollment trends, (3) undergraduate transfers, (4) degrees conferred, (5) faculty, (6) library resources, (7) admissions, (8) student financial aid, (9) student housing, and (10) general data on full-time equivalent enrollment, total allocations made to the state's private colleges and universities, and state legislative tuition grants. Appendices include a list of sources for each data grouping and the definitions of terms used in the report. (GLR)

PREFACE

The University of North Carolina presents the twenty-seventh annual Statistical Abstract of Higher Education in North Carolina. This abstract covers the breadth of higher education activities in the State in their quantitative aspect, from simple counts of enrollment and degrees conferred to complex analyses of the flow of student transfers among institutions. This wide range of information, collected and published annually, should be useful to members of the public and to planners and educators in educational institutions and government agencies. In this edition, new information has been added to the section on enrollment. It is hoped that the information will aid in the more effective use of resources allocated to higher education.

The data for the abstract were assembled by the Planning Division of the General Administration of the University of North Carolina from information supplied by the colleges and universities. I especially wish to acknowledge the work of Linda Balfour and Arlene Spivey of the General Administration staff for their meticulous care in assembling and editing the abstract and the computing staff for generating data. Acknowledgement is also due to assisting officials at the institutions, public and private, for their continuing and wholehearted cooperation. To all, I express my sincere appreciation.

INTRODUCTION

The Statistical Abstract of Higher Education in North Carolina, 1993-94 has been compiled to give a detailed statistical view of higher education in North Carolina. This abstract presents both past and current (1993-94 academic year) information. It is designed to provide legislators, educators, and other interested citizens of North Carolina with a statistical account of higher education in this State. From this abstract, the reader can gain some knowledge about who is being educated, where they are being educated, and the resources supporting their education.

The data reported herein were compiled from forms mailed to the individual institutions by the Planning Division of General Administration of the University of North Carolina in the summer and fall of 1993 for processing during the 1993-94 academic year. The forms are designed to satisfy both Federal and State data requests (see Appendix A).

The staff of the Planning Division makes every effort to verify the validity and reliability of the data reported by the institutions. The ultimate responsibility for the accuracy of the data, of course, lies with the individual institutions since they originate the reports on which this abstract is based. In certain instances discrepancies may appear to be present, when in reality the data reported may reflect different interpretations of definitions by respondents in different institutions. Wherever possible, these apparent discrepancies are explained by footnotes. For example, because of its unique student body, which consists of both college and high school students, data for North Carolina School of the Arts may not be directly comparable to other institutions in some tables in which they are presented.

SECTION II

ENROLLMENT TRENDS

There are policy changes at two campuses. The enrollment for Campbell University is approximately half what it has been prior to Fall 1991 because in prior years credit extension enrollment was included in their reports on resident-credit enrollment. Mount Olive College now includes an off-campus site in their resident-credit enrollment, per instructions from their accrediting agency, because of the proximity of the off-campus site to the main campus.

Barber-Scotia College did not provide resident-credit enrollment for fall 1991. Where data are missing, there will be dashes (-).

SECTION IV

DEGREES CONFERRED

In 1982-83 the National Center for Education Statistics and the Office for Civil Rights - both within The Department of Education - adopted a new Classification of Instructional Programs (CIP) for reporting degrees conferred by colleges and universities in the United States. The new classification system includes 50 major categories of degree programs, 34 of which apply to the bachelor's, master's, doctorate, and first professional degrees offered by North Carolina senior colleges and universities. This classification system was updated in 1992.

An earlier classification system - the one used to report degrees conferred in Abstract tables since the 1970-71 academic year - has been retained by many North Carolina institutions for all purposes other than meeting official federal reporting obligations. For this reason, and for the purpose of maintaining comparability with Abstract data reported on degrees conferred in past years, the table formats for reporting degrees conferred in this section continue to use the former discipline categories. The crosswalk between the new CIP and these categories is presented in Appendix C. Readers may request summary data in CIP categories by writing to UNC-General Administration, Division of Planning and Institutional Research.

Note: In the fall of 1991, the method of calculating the average SAT score for the University of North Carolina and its constituent institutions was changed to accomodate score data in unit record, rather than frequency distribution, format. Score averages dating back to 1981 have been revised to reflect the new method.

Note: The College Board has advised colleges and universities to report median and quartile scores in addition to simple averages. The top quartile is the SAT score in which 25% of students score that high or higher. The median is the SAT score in which 50% of students score that high or higher. The last quartile is the SAT score in which 75% of students score that high or higher.

Note: The College Board has advised colleges and universities to report median and quartile scores in addition to simple averages. The top quartile is the SAT score in which 25% of students score that high or higher. The median is the SAT score in which 50% of students score that high or higher. The last quartile is the SAT score in which 75% of students score that high or higher.

[1] The Robert T. Stafford Student Loan Program (formerly called Guaranteed Student Loans) consists of Stafford Loans, PLUS loans, and Supplemental Loans for Students (SLS). Collectively in North Carolina the program is called the North Carolina Insured Student Loan Program. Data include loans to undergraduate and graduate students. Data do not include loans made under other state or private non-profit loan programs.

[2] Includes loans in The North Carolina Student Loan Program for Health, Science and Mathematics (HSM). Does not include loans made at nine proprietary institutions licienced by the Board of Governors for 13 loans totaling $40,750 and thirty-two out-of-state institutions for 76 loans totaling $499,200.

[3] High School figures are not included in totals.

[4] College transfer coursework is offered under a contract with another institution.

NOTE: The allocations shown above were made under the State Contractual Scholarship Fund (SCSF) program to North Carolina resident undergraduate students attending private colleges and universities in North Carolina. For 1993-94, the allocation made to each institution was determined by multiplying the number of full-time equivalent North Carolina resident undergraduates enrolled by $450.00. The funds so allocated were then granted by the institutions to their North Carolina undergraduate students on the basis of financial need. The General Assembly appropriated $11,274,020 for the SCSF program for the 1993-94 academic year.

Administration of the SCSF program which was established by the North Carolina General Assembly in 1971, was transfserred to the North Carolina State Education Assistance Authority in July 1993.

APPENDIX B

DEFINITIONS OF TERMS

The definitions below are intended to facilitate the better understanding of information presented in this report. These are selected from the University of North Carolina's reporting forms and the U. S. Department of Education's Integrated Postsecondary Education Data System forms.

1. ENROLLMENT, unless otherwise noted, refers to the headcount resident-credit enrollment. The resident-credit enrollment includes full-time and part-time students enrolled in courses basic to or creditable to a bachelor's or higher degree. This excludes students in extension, correspondence, adult education, audited courses, short courses, and those enrolled for individual lessons only.

Undergraduate includes students who have not completed a full four-year program or its equivalent and also students in a five-year bachelor's program. This classification includes students in junior and community colleges in programs transferable to four-year institutions.

First Professional includes students who are in a professional school or program (law, medicine, dentistry, pharmacy, veterinary medicine, and theology) which requires at least two or more years of previous college work for entrance.

Graduate includes students who have attained at least one standard bachelor's degree or first professional degree and who are or might be candidates for a master's or doctorate degree.

First-Time Freshman includes new students who have no college credits prior to the immediately previous summer sessions.

Special/Unclassified includes students who are not candidates for a degree, diploma, certificate, or equivalent award, although taking courses in regular classes with other students.

Full-Time Student includes students registered for 12 or more credit hours as undergraduates or 9 or more credit hours as graduates.

Part-Time Student includes students registered for less than the required full-time load.

FTE (Full-Time Equivalent) of Part-Time Students

Undergraduates	Graduates
12 or more credit hours = 1	9 or more credit hours = 1
9 to 12 credit hours = 3/4	6 to 9 credit hours = 3/4
6 to 9 credit hours = 1/2	3 to 6 credit hours = 1/2
Less than 6 credit hours = 1/4	Less than 3 credit hours = 1/4

In-State Students are those whose legal residence, as determined at the institution, is in North Carolina.

Out-of-State Students are those whose legal residence, as determined at the institution, is in a state other than North Carolina or in a foreign country.

2. TRANSFER refers to students transferring to North Carolina institutions who have college credits from other institutions in a previous regular session(s). A former student transferring back to his original institution after attendance at another institution is not classified as a transfer.

3. DEGREES in this report refer to earned degrees conferred (not honorary). Specifically the following degrees are included:

Bachelor's Degree requires successful completion of at least four but not more than five years of academic work.

First Professional Degree signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance and which requires a total of at least six academic years of college work for completion. Examples of first professional degrees are the Doctor of Jurisprudence (J.D.) and Bachelor of Laws (LL.B.), Doctor of Dental Surgery (D.D.S.), Doctor of Pharmacy (Pharm.D.), and Doctor of Medicine (M.D.) degrees.

Master's Degree is customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Doctorate Degree includes such degrees as Doctor of Education, Doctor of Juridical Science (S.J.D.), Doctor of Public Health, and the Doctor of Philosophy in any field.

4. FACULTY refers to the professional personnel employed in colleges and universities who are primarily assigned to resident instruction and departmental or organized research. This does not include other professional personnel in library, auxiliary enterprises, and public service activities.

5. EXTENSION ACTIVITY is defined in this report as any on- or off-campus instructional, research application, or public service activity sponsored by the reporting institution which is in addition to the regular on-campus instructional and research activities provided for the regularly enrolled, on-campus, degree candidate.

APPENDIX D

EXPLANATION OF 1984 CHANGE IN THE DEFINITION OF CURRICULUM ENROLLMENT CATEGORIES USED BY THE DEPARTMENT OF COMMUNITY COLLEGES

Starting in the fall of 1984, the Department of Community Colleges changed the conditions for inclusion in each of its curriculum enrollment categories. The change requires that students taking coursework which is primarily in a particular curriculum category be reported as special credit in that category, rather than simply as "special credit". Students formally enrolled in a curriculum program are still reported in that curriculum category.

One effect of this change has been to eliminate altogether the separate category "special credit" and to create four new enrollment categories: special credit college transfer, special credit vocational, special credit technical, and special credit general education. Enrollments in college transfer, vocational, technical, and general education categories are larger in post-1984 reporting than they would have been in pre-1984 reporting because special credit students in these categories have been added to their respective totals. For example, 1984 college transfer enrollments included 9,812 college transfer students and 6,772 special credit college transfer students.

The change in reporting definition resulted from a finding that some students previously classified into a particular curriculum category had not formally enrolled in a program in that category. By the old definition, such students were "special credit" students even though their coursework could be classified into a curriculum category. By mutual agreement therefore, the Department of Community Colleges and their institutions agreed to the change described above.

The change has had two effects. First, it caused some students who would have been incorrectly classified into a curriculum category to be reported in the appropriate new special credit category. Second, it subdivided the special credit category into four curriculum categories. Because of the first effect, the sum of students in the four special credit categories is larger than the number that would have been reported under the old special credit category. Similarly, the numbers reported in the four separate curriculum categories are lower than they would have been under the old reporting system.
